1. Purpose and Legislative Background

Each staff at Mastery Institute Australia is required to compile an individual professional development plan. This plan is to be reviewed annually and forms the basis for our distribution of financial support for individual professional development activities.

Outcome Standards for RTOs, Standard 3.1, 3.2 and 3.3 requires Mastery Institute Australia to ensure that all its trainers and assessors undertake professional development in fields of knowledge, practice, learning and assessment.

Approval by the CEO does not guarantee financial support for the plan but does ensure that it will be considered when financial support is distributed and will depend on our financial position.

2. Scope

This policy applies to the trainers, assessors, and other academic staff of Mastery Institute Australia.

3. Policy

It is a requirement as a Registered Training Organisation to provide for the continued professional development of staff members. Specifically, Mastery Institute Australia academic team is required to apply systems to maintain and develop the professional competence of trainers and assessors and training support personnel. This includes ensuring that staff maintain the currency of their knowledge and skills relevant to the training and assessment being delivered or the role they perform. This requirement has three specified components:

- Continued development of their vocational competence (i.e., trade/industry skills and knowledge).
- Continued development of their training and assessment competence (if applicable to the role); and
- Continued development of their awareness of applicable legislative and enterprise requirements.

To achieve this, Mastery Institute Australia will implement professional development in two strategies:

- Individual professional development, and
- Collective professional development.
